

To Whom it May Concern:

This is a letter of recommendation for Danny Diaz:

I had the chance of working with Danny for a little over two years (between 2016 and 2019) on "La Centrale", now called "Luna Park" at Bickel City Centre. Danny, was the project architect for this 40,000 sq ft, 3 story build-out that had 9 restaurants, a learning classroom, ice cream shop, retail, and merchandise. The project had many challenging components like the integration of all mechanical and plumbing systems, alignment and full design of a one of a kind custom storefront with exiting conditions, DERM grease interceptors, building department occupancy separation, and hundreds of custom design details and millwork package. This project had a total value of \$32,000,000.

I am confident in my letter of recommendation because Danny was able to help our construction team tremendously time and time again with all of our RFIs, city comments and challenges, ownership requirements, and mechanical solutions and coordination. Danny was always on time and well prepared for all meetings. He worked closely and expeditiously with many of the team members to get responses and results. In the past I have recommended Danny to other architects as I think he is a huge asset to a project. It is not just his ability to communicate well and be proactive, but his personality that separates him from many. Danny is easy going, willing and proactive. A great overall person to work with, his attitude shows how much he really enjoyed what he does and his role on projects.

Feel free to call me if you have any questions about Danny, at my cell number below.

Sincerely

**Mark Polani**  
**Director of Project Development**
